| 1 | <p>Home learning over lockdown</p> <p>Things that went well: Didn't feel pressurised Enjoyed have topics to follow The routine worked but only half a day – that was enough Input was spot on The online lessons were great</p> <p>Things that didn't go so well: Access to screens Some didn't do so well and was hard to motivate the children Difficulties typing therefore writing things down online When we returned with half of the school in June, the input dropped back a bit</p> | |
| 2 | <p>Home learning in the future</p> <p>Need to consider printer access for families Need to consider older children may be required to access online learning in the mornings Half a day of learning would be sufficient and manageable Video lessons or video meet up would be good – recognition that this is more difficult if just one or two children at home rather than whole class in isolation Writing could be done by hand and then a photo taken of the work to upload Could we consider how we would give reading books?</p> | Staff |
